—J. D. Sitts, of Franklin, was here yesterday.

—Isaac Barr is recovering from a severe attack of pneumonia.

—Mr. Meserole and family have a very fine new canopy top carriage

—Mrs. Rogers and Miss Lonnie Stevens drove from here to Franklin to-day

—Charles Gallagan offers his home for sale, just north of the High school grounds

—Euroanpe authorities fear trouble on May-day, tomorrow, from labor organizations

—Miss Ella Zohn, of Rock Island, is visiting with her aunt, Mrs. J. E Zohn, on East Second street.

—Miss Nellie Thomas entertained a few of her young friends last evening at her home in North Dixon.

—The Ladies Aid of the Universalist church meet with Mrs. C. F. Emerson on Thursday afternoon (May 1st) at 2 o'clock.

—Henry Remers is expected home from Hot Springs, Arkansas, to-day. We hope that the treatment there has improved his health.

—The Ladies Aid Society of the Lutheran church will meet Thursday at 2 p m., May 1st, at the residence of Mrs. W U. Baker

Don't fail to read Brown Bros. new advertisement. They have received a large invoice of B Priestly & Co's black goods.

—Superintendent Wasley, of the Water company, is placing water pipes in the residences of J. H. Thompson and J. V. Thomas

—Wm. M. Kennedy's funeral this afternoon was largely attended; the impressive ceremony was conducted by the Knights Templar.

—Captain C. H. Ingals and Fred Oberhelman are here to-day from Sublette looking after that "corporation" or no "corporation" business.

—Patrick Sheehan, a laborer on the gravel train, received a severe scalp wound at the pit west of this city Monday. A plow, being tripped by a post, hit him

—James Gaffney is a great road-builder and when he stars in on a job he completes it in fine shape. The work now in progress on Fifth and Ottawa streets comes in that class.

—May 1st being Saints Philip and James' Day there will be service in the vestry of St. Luke's church at 10 o'clock in the morning. Remember the "Martyrs" of the church! All are invited.

—There was a wreck last night on the C. & N. W. between Fulton and Union Grove. A freight train ran into another that had stopped between stations. An engine and eight cars were demolished. Passenger trains were delayed a few hours.

—The Guild rooms of St. Luke's church will be open on Thursday, May 1st, after nine o clock in the morning for the reception of all provisions for the supper to be given that evening from 5:30 to 8 o clock. Please be prompt in sending in what you have.

—The city has purchased the old college bell of George L. Schuler and yesterday it was raised to the top of the new tower that has been erected just south of the Dee Lye Works in Dement Town. This is a good bell with which to sound a fire alarm.

—At a meeting of Directors and Trustees of the Dixon District Camp Meeting Association, held at Franklin Grove recently, O. A. Oliver was re-elected superintendent. The date for the W. C. T. U. temperance meeting for the 7th district, was fixed at August 16th and 17th, and the camp meeting is to continue from August 19th to 27th.

—The Riverside shoe factory is in need of additional help to the number of sixty or more men and boys. The factory is increasing its output and the managers are unable to find the desired increase of employes in this town, so they are advertising for such help in neighboring towns and cities. Another item in this connection, and of interest to the capitalists, is that the boarding houses for these laborers in our city have raised the price of board during the last year, and there is not enough competition and not a sufficient supply of boarding houses. Therefore the building of tenement houses in this city would be a safe investment of money. Indeed more houses, appear to be, as it has been for a year or so, much needed in Dixon.

—Earnest Klosterman died at the home of his daughter, Mrs. Henry Miller, near Prairieville, on Friday afternoon, aged eighty-five years. He was born in Germany and came to America in 1845, locating in Palmyra, this county, where his home has since been. His wife died several years since. Mr. Klosterman leaves five children, Mrs. Henry Miller, of Palmyra; Fred F. Klosterman, now of Sterling; Miss Dorothy, residing with Mrs. Miller; George Klosterman residing on the home farm near Prairieville, and Henry, of Tipton, Iowa. The funeral took place on Monday at 10 o'clock.

THE TELEGRAPH with peculiar regret records the death of Mr. Klosterman. He was in all respects a cultivated gentleman; a most excellent citizen; an honest man and a generous neighbor.

—William Mead, of this city, has been granted an increase of pension and back pay that will amount to about one thousand dollars.

—A new order is about to be organized in this city under the head of United American Mechanics. Charley Cass has secured nearly enough names to secure a charter. The object of the order is to promote the interest of American mechanics, to assist in obtaining employment, also to establish a sick and funeral fund. No insurance is attached to the order.

—A dispatch was received at Rockford, so we learn from "The Register," Saturday evening from Los Angeles, Cal., stating that Judge Brown was threatened with a paralytic stroke and calling his sons, Edward and Frank to the bedside of their sick father. A freight engine was lying steamed up in the Illinois Central yard, and Chief Dispatcher Cummings ordered the engine out to take the young men to Dixon, where they could catch a western train on the C. & N. W. road. The engineer threw the throttle of the locomotive wide open, and thirty minutes after they left Rockford they pulled into the depot at Freeport and steamed down the track for this city where they caught the western train. The sons of the sick judge will arrive in Los Angeles probably to-day. It is feared that Mr. Brown is dangerously ill, and that the shock may prove fatal. He is seventy-two years old and has been subject to fainting spells. While crossing the mountains he was taken with a violent nose bleed, and his friends fear the worst. Mrs. Brown and her daughter, Mrs. H W. Buckbee, are with the judge, and it is sincerely hoped that he will recover.

—In testing the water works yesterday the committee of Aldermen found the hydrants, pipes, mains all in very good working order. The hose are growing old and need "darning." In fact if there should break out very much of a fire and thus bring into actual use very much of it there would be something more strong in language than "darning it." The members of the city council yesterday did not go into any sort of a tasting test of the water They are not really—most of them—very good judges of insipid fluids of that sort. However they are all for pure artesian well water. The tests made were, however, all quite satisfactory. While there was only sixty-five pounds of steam pressure on at the engine house a water presure of ninety pounds was indicated at a hydrant about one mile distant; at the Grand Detour Plow shops; thus indicating that the pumps are in good condition and are machines of great power. When we take into consideration the friction resulting from such an extended system of pipes the test was indeed satisfactory. Two streams of water were thrown at the Nachusa House a height of over one hundred and forty feet. The pressure over in Dement Town burst two sections of the hose thus clearly showing the necessity of new ones. This matter should not be neglected by the city council

[Locals continued on last page.]

Do you value health? then use Emmert's water purifiers. Use the air pump before the water in the cistern becomes foul and taints the pump stock with the foul oder. Price of air pump $4.

Do you want a cistern pump, then use Emmert's combined air and cistern pump, the best article for purifying cistern water ever made. Simple, durable, and does not get out of order. Price at shop $4.00. Order by postal card. Address E. Emmert, Dixon, Ill.

We are using one of Mr. Emmert's air pumps in our cistern. It removes all foul oders from the water and makes it clear. It seems almost like a miracle.

PLEASE TAKE NOTICE.

This seems to be the age of importing, consequently, in connection with my Bakery, will handle several different kinds of Chicago bread. As Chicago has secured the World's Fair against the greatest opposition, you can rest assured she can compete with any town or city in the United State in making bread. Therefore I respectfully ask the people of Dixon who buy bread, to give it a trial. It is sure to please you.

Progress of the Great Upheaval of Labor.

THE FIGHT VERY HOT AT CHICAGO.

Outlook for the Carpenters Not So Bright—The Old Bosses Ask Police Protection—Packing Houses Sure To Be Involved—Men Going Crazy About the Matter—Europe All Torn Up—Marquis de Mores, the One-Time Ranchman, in the Bastile for Taking a Hand in the Fight.

CHICAGO, April 30.—The arrangement between the striking carpenters and the new Bosses' association Monday night was apparently only a truce, and is liable to be broken at any moment. The Bosses' association is striving hard to bring about permanent peace, but until they establish the fact that they comprise a majority of the contractors, it is extremely doubtful if they will accomplish anything. The central council of the carpenters held a meeting yesterday afternoon, at which it was decided to continue the fight indefinitely on the same lines that have already been traversed.

Unconditional Surrender Demanded.

President O'Connell, after the meeting, said that there is no prospect of an immediate settlement. "The fact is," he said, "the men will consent to nothing but absolute surrender." The fact that the bricklayers, the masons, and other branches of the building trades have been so seriously affected by the carpenters' strike has aroused such a sentiment in favor of the latter that nothing short of a complete surrender on the part of the bosses will ever settle the differences at stake. These trades are as much interested as though it were their own strike, and will use their influence to make it successful.

No Chance with the Old Bosses.

The strikers have ceased to deal with the old bosses' association, because they believe there is no chance to win a single concession as long as the present condition of affairs is maintained. President Goldie, of the old Master Carpenter's association, headed a committee of that body yesterday on a call upon the mayor for protection to non-union men. They presented a document to his honor making serious charges against the strikers, saying: "The strikers have behaved outrageously toward our workmen who are willing to work for us; their lives have been threatened; they have been intimidated, beaten with clubs and brickbats, been waylaid when going and coming from their work. Their homes have been invaded and threats made to burn them down if they continued to work for us or if they did not join the union. At least three of our workmen are lying at death's door from being clubbed unmercifully by the strikers."

The mayor promised to do the best he could.

Effect on the Lumber Market.

The carpenters' strike has seriously affected the lumber market at this port. Lumber vessels have been lying at the lumber market from four to five days, there being no sale at any price. At present there are 10,000,000 feet of lumber on the market. The stocks on hand in the yards show an increase of 12,000,000 feet of hardwood lumber over that of a year ago and a decrease of 30,000,000 feet of pine.

Rumors of Other Strikes.

It was reported yesterday afternoon that the 1,600 employes of the McCormick Harvesting Machine company were ready to strike on May 1 for higher wages and eight hours a day. Mr. Butler, the general manager of the company, stated to a United Press reporter last evening that there is no foundation to the rumor; that the men had made no complaint, and as far as he knew were perfectly satisfied. Several of the workmen, however, expressed their belief that there would be trouble on May 1. It is also reported that the 1,800 men employed by the Malleable Iron works will strike May 1 for the eight-hour day.

The Packing Houses.

The stock yards laborers' union has sent an ultimatum to the employers, demanding eight hours a day and 2 1-2 cents per hour increase in wages. The packers will make no reply to it. They have fully determined to meet a struggle which they believe will be final. Chief Marsh, acting under orders from Mayor Cregier, who has had extensive interviews with representatives of the packers, has made full arrangements to throw an extraordinary force of men into the yards at a moment's notice. He has also given Armour, Swift, Morris, and others permission to swear in special policemen, who will do guard duty in the immediate vicinity of houses that will endeavor to run. Chief Marsh acknowledged yesterday that the situation at the yards is beginning to look very serious.

As to the Militia.

If there has been an order issued calling upon the militia to hold themselves in readiness in anticipation of trouble on May 1 the officers know nothing of it. Col. Zeigler, of the Second regiment, said yesterday that he did not believe any such order has been issued. "There is nothing to apprehend," he continued, "from the parade of the workingmen. The only disturbance at all likely to occur is from the Socialist and Anarchist factions."

The Men Going Mad.

Four carpenters, whose minds have been unbalanced by the strike, have been locked up in the detention hospital. Thorwald Johnson, a Swede, who was on his way to the old country, was taken off a Minneapolis train Monday night. He was then a raving maniac, talking of nothing but strike, unions, and eight hours. "I'll kill every man that don't belong to the union," is the continual cry of John Fraydencahl, another unfortunate carpenter, who was brought into the hospital Tuesday morning. Frank Black, of 777 Ridgeway avenue, is despondent, and wants to take his life. He jumped into the river, but was fished out. He is a non-union man, and says the strikers will not let him work. William Watz is still another victim. He is one of the strikers, and is a carpenter by trade. He talks of nothing but the strike and the 1st of May.

Will Go to Work at 8 O'clock.

MILWAUKEE, April 30.—None of the union carpenters in Milwaukee will go to work Thursday morning, May 1, before 8 o'clock. The evasive reply of the Contracting Carpenters association to the demand of the unions for the adoption of the eight-hour day left the matter in an unsettled and unsatisfactory condition, and the men have concluded to take the bull by the horns and inaugurate the new order of things without the assistance of their employers.

Adopted Different Tactics.

PITTSBURG, April 30.—The supreme council of the National Federation of Railroad Employes met in this city at 10 o'clock yesterday morning. After several hours passed in reviewing the action of the local committee, the supreme council drew up a new list of grievances. This list will be presented to the officials of the railroads by committees of employes of the respective railroads, and not by a general committee representing the organization.

Timbermen on a Strike.

HANCOCK, Mich., April 30.—The timbermen and day laborers of the Atlantic copper mine are on strike. They have been getting about $40 a month, and have demanded $1.75 a day. Agent Stanton, who is in New York, has notified the men that he will meet their demands, but the men refuse to resume work until he returns.

Dometic Labor Notes.

The carpenters of Poughkeepsie, N. Y., will demand nine hours as a day's work on and after to-morrow.

The striking workmen of J. P. Squires & Co., Boston are working up a boycott against the firm.

The master carpenters of Philadelphia, at a meeting last night, decided not to grant the increase in wages.

Thirty-six contractors and builders, at Malden, Mass., have agreed to the nine-hour day from May 1.

The restlessness of labor is confined to no part of the country north of Mason and Dixon's line. All over the north the unions are moving for shorter hours and higher wages.

SITUATION IN EUROPE.

Marquis De Mores Arrested for Fomenting Trouble.

PARIS, April 30.—The well-known western ranchman, Marquis de Mores, who lately has become the ardent exponent of subversive doctrines, and posed as an active friend of the laboring man among the Socialists of Belleville, was arrested here Monday, though not without difficulty. Along the Rue Tilsit and down the Champs Elysee, which was at the time crowded with carriages and pedestrians returning from the Bois, went the marquis and his pursuers. As the latter gained steadily on him, M. de Mores finally decided to surrender, and was arrested. The marquis was examined and remanded yesterday. He is treated as a first-class prisoner. He is charged with inciting murder, pillage, and arson and reqolt in the army.

What Was Found in the House.

Le Temps says that in the house of the Marquis de Mores the police discovered printed pamphlets and leaflets inciting the workingmen to violence, and that in the house of M. Dumont they found a secret printing press together with a number of printed copies of a manifesto urging the troops to revolt on May day. It is stated that the marquis and his friends were engaged in a plot to proclaim the Duc d'Orleans. In this they were to be assisted by the revolting of the Anarchists and Blanquists.

Irish Strikers in Trouble.

DUBLIN, April 30.—One of the striking signal men of the Great Southern and Western road, who was prosecuted by the directors of the company for abandoning his post, was tried yesterday and found guilty. The court imposed a fine of 10 pounds sterling upon him. The prosecution against ten other signal men was withdrawn. In consequence of this action of the directors Archbishop Walsh has published a letter condemning the directors and withdrawing his proposals on behalf of the men.

Riot at Glasgow.

LONDON, April 30.—A riot occurred in Glasgow yesterday, owing to the refusal of the grocers of that city to accede to the early closing demands of their employes. The disorderly movement was obviously not preconcerted, as the several outbreaks, which together, would have resulted in serious damage to property and possibly something worse, occurred at points distant from one another. As it was, however, many objectionable shops were stoned.

Urged to Strike for Liberty.

VIENNA, April 30.—A ten-page Socialistic pamphlet bearing on its cover a picture representing workingmen raising their eyes to the goddess of light, has appeared here. It contains pictures of the leading men of Europe and of the Socialist leaders. Workmen are urged to strike for liberty on May day. The police make constant seizures wherever the pamphlets are offered for sale. Many arrests have been made.

Intense Excitement in Europe.

LONDON, April 20.—Excitement throughout Europe over the labor demonstrations which are to take place to-morrow is intense, and there is a feeling that blood will be shed in Austria and France, and probably in Germany. Everywhere extraordinary precautions are being taken to suppress riots of workingmen, and in France vigorous measures are being employed against the Anarchists.

Opposed to the Movement.

BERLIN, April 30.—A vote was taken among the employes in twenty-five foundries in Chemnitz yesterday on the question of observing May day as a holiday. The result of the voting was that two-thirds of the men signified their opposition to the movement. As Chemnitz is a Socialist stronghold the vote is supposed to indicate that the bulk of the workmen are apathetic.

Bayonetted Turbulent Strikers.

VIENNA, April 29.—A serious labor riot occurred at Frankstadt, Moravia, yesterday. The workingmen pillaged a factory and resisted the troops, who charged upon them and wounded many with bayonets.

How They Treat Rioters in Austria.

VIENNA, April 30.—Thirty-eight of the rioters arrested here were sentenced yesterday to imprisonment for terms varying from eight months to three years.

Six Months for Woodruff.

CHICAGO, April 30.—Frank Woodruff, alias Black, the Cronin suspect, who refused a Bridewell sentence Monday, came into court yesterday, withdrew his plea of not guilty on the horse-stealing charge, and accepted a sentence of six months in the Bridewell.

A New Chicago Paper.

CHICAGO, April 30.—The first edition of the new afternoon daily, The Evening Post, under the management of James W. Scott, publisher of The Herald, was issued yesterday afternoon. The Post is an eight-page, 2-cent paper.

Acquitted of Responsibility.

NEW YORK, April 30.—Superintendent Pierce, of the Brush Electric Light company, was yesterday acquitted of causing the death of Henry Harris, who was killed by coming in contact with an electric light wire.

A LEETLE TOO FAST.

The President Puts the Brakes on Appropriations.

VETO OF A PUBLIC BUILDING BILL.

Congress Receives a Hint to Go Slow and Give the Treasury a Rest—The Amiable Mills of Texas Has a Collision with the Speaker—Land Forfeiture Bill Passed by the Senate—The Behring Sea Question Likely to Cause Trouble—Official Notes.

WASHINGTON CITY, April 30.—The President sent to the house yesterday a message vetoing the bill for the erection of a public building at Dallas, Tex. The bill made an appropriation of $200,000 for the construction of an addition to the building completed in 1889. The president calls attention to the fact that the bill as introduced in the house provided for an appropriation of $100,000, and that the committee on public buildings and grounds, after consultation with the supervising architect of the treasury department, recommended the appropriation of that amount.

The First Amount Sufficiently Large.

The postmaster at Dallas, says the president, claims that the additional accommodation needed will require the erection of an addition two-thirds as large as the present building. The supervising architect wrote to the senate committee that an addition larger than was required could be erected for the amount at first proposed —$100,000. Under the conditions the president belives the proposed appropriation too large, and he therefore vetoes the bill.

Some Advice to Congress.

Following the statement of his reasons for the veto the president says: "The legislation for the erection of public buildings has not proceeded, so far as I can trace it, upon any rules. Neither population nor the extent of the public business transacted has always indicated the points where public buildings should first be built or the cost of the structures. * * * The bills are individual, and if comparisons are attempted, the necessary element of probable future growth is made to cover all apparent inequalities.

Other Matters To Be Considered.

"I am not unfriendly to a liberal annual expenditure for the erection of public buildings where the safe and convenient transaction of the public business demand it, and the state of the revenues will permit. * * * But in view of the pending legislation looking to a very large reduction of our revenues, and the urgency and necessity of a large expenditure in certain directions, I am of the opinion that appropriations for the erection of public buildings and all kindred expenditures should be kept at the minimum until the effect of other probable legislation can be accurately measured.

General Vs. Local Interests.

"The erection of a public building is largely a matter of local interest and convenience, while expenditures for enlarged relief and recognition to the soldiers and sailors of the war for the preservation of the Union, for necessary coast defenses and for the extension of our commerce with other American states are of universal interest and involve considerations not of convenience but of justice, honor, safety and general prosperity."

MILLS "SASSES" THE SPEAKER.

The Texan Looses His Wonted Equability of Temper.

WASHINGTON CITY, April 30.—When the house had came to order yesterday Pierce of Tennessee arose to what he claimed was a question of personal privilege, to deny a statement of Evans of Tennessee to the effect that there had been election skullduggery in his [Pierce's] district at the last election. The speaker said the matter did not present a question of personal privilege, and Pierce sharply responded that it did. The speaker said that no gentleman had the right to make such a response to the chair.

Enter Mills of Texas.

Smelling the battle from afar, as it were, Mills of Texas took a hand, and asked why the speaker did not stop Evans the other day to which the speaker replied that he was not present.

Mills—Then you ought not to stop the gentleman from Tennessee.

The Speaker—That does not follow.

Mills—It does follow.

The Speaker—The chair does not desire to enter into a personal controversy with the gentleman, and he thinks that if the gentleman will reflect, he will not persist in this impropriety.

Mills—I do not see the impropriety, when one gentleman charges another with fraud.

The Speaker—The gentleman from Texas will please be in order.

Mills—I am in order; and the speaker is more out of order than the gentleman from Texas. The ruling is simply an outrage.

The matter was then dropped.

THE DAY IN CONGRESS.

Passage of the Land Forfeiture Bill in the Senate—Doings in the House.

WASHINGTON CITY, April 30.—Among the bills introduced in the senate yesterday was one for an annual pension of $2,500 to the widow of Gen. McClellan. The land forfeiture bill was resumed. Berry stated the Democratic position to be that where a railway had not been completed in the specified time the land granted thereto should be forfeited even though the road was completed. After a long debate the bill was passed. The McKinley customs administration bill was then taken up, some amendments agreed to, others offered, and pending consideration the senate adjourned.

The house began the day with an exhibition of temper by Mills, who flatly contradicted the chair on a question of order, but finally subsided. The senate resolution for the irrigation of arid lands in the valley of the Rio Grande was concurred in. The bill removing the charge of desertion against William Dawson was passed. Dawson, in order to escape the hardships of prison life in Confederate prisons, enlisted in the Confederate army, but subsequently returned to the Union army. The postoffice appropriation bill was reported. In committee the bill providing for the classification of worsteds as woolens was taken up and led to a long debate, the Democrats opposing the bill and the Republicans advocating it. The bill was finally reported to the house, but no quorum was present at the vote on its passage and the house adjourned.

Pensions for Army Nurses.

WASHINGTON CITY, April 30.—Miss Clara Barton and Mrs. S. E. Fuller, secretary of the National Relief Corps, each addressed the house committee on invalid pensions yesterday in support of the bill introduced in the house by Mr. Cogswell for the relief of women enrolled as army nurses. The bill grants a pension of $14 per month to all women commissioned by the surgical department of the United States during the late war and who have been honorably discharged, and who, from the results of such service and the infirmties of advancing age, are unable to earn their own support.

Status of the Silver Question.

WASHINGTON CITY, April 30.—It looks as though the senate would pass the Teller free coinage bill or something very like it. The attempt yesterday to get the caucus committee together to pass on the silver question was a failure, and the drift of opinion in the senate is that a free coinage bill will be passed there, the compromise measure by the house and then a conference committee will fix up another compromise. The free coinage men in the senate want to get a measure through as near their ideas as possible, but safe from a presidential veto.

The Contention Over Behring Sea.

WASHINGTON CITY, April 30.—There is apparently good authority for the statement that the governments of the United States and Great Britain are now farther apart in their negotiations in regard to the question as to whether or not Behring sea is a closed sea, than they have been at any time since the negotiations were begun. The United States maintains that it is a closed sea, and was made so by the treaty of 1825, while the British government contends that said treaty does not at all cover the case.

House Republicans in Caucus.

WASHINGTON CITY, April 30.—The McComas bill to prevent "gerrymandering" of congressional election districts, and the Morrill service pension bill, were the subjects discussed by the caucus of Republican members of the house last night. The gerrymandering bill went over until another caucus. The Morrill pension bill was amended by a proposition to fix the age limitation at 60 years, and the caucus at midnight adjourned.

Reed's Rule in the Senate.

WASHINGTON CITY, April 30.—While the land forfeiture bill was under consideration in the senate yesterday, a quorum failed to vote on an amendment, when fifty-two members were present. Sherman thereupon gave notice that hereafter whenever a quorum was present and the vote did not disclose the fact, he would insist upon the sensible rule that senators present and not voting be counted.

An Error in a Bill.

WASHINGTON CITY, April 30.—The senate and house yesterday recalled the Oklahoma bill from the president that an error in putting the word "west" where it should be "east" may be corrected.

KEMMLER WILL LINGER AWHILE.

A Writ of Habeas Corpus Which Respites Him Until Late in June.

AUBURN, N. Y., April 30.—Judge Wallace, of the United States court, has granted a writ of habeas corpus returnable June 17 in the case of Kemmler. The ground for the writ is that the act under which the execution was to take place is in violation of the constitution. The announcement of the news at the penitentiary caused a stampede of anxious reporters who were "camping on the trails" of Warden Durston and everybody who was suspected of being one of the select twenty-seven who are priviliged to witness the execution.

Made Brown Feel Melancholy.

Some time before the above news was received, a tall young man drifted into the prison. He was Harold P. Brown, the electrical expert who started the Westinghouse dynamo as a killing machine. He had come expecting to work the apparatus which was to put Kemmler out of the world. As soon as he heard the news he said: "Postponed again. I suppose I may as well go back to-night." It was hard to realize that there was any man in the world who would become so depressed at the temporary lease of life given to even so cruel a wretch. But that was the impression Brown created, and it was the cause of a great deal of comment.

The Center of Interest Shifts.

It was two hours after the receipt of the news at the prison before Kemmler was made aware of it. At the time the news came he was engaged with his spiritual advisers, and the warden declined to interrupt the exercises. The reporters, however, had a new source of interest—how would Kemmler receive the news? and they did not let the warden forget that a world was waiting to hear. Accordingly, about 4 p. m. the warden went to Kemmler's cell to tell him of his good fortune. Kemmler and the warden were alone in the cell. The warden said solemnly to Kemmler: "Well, William, they've granted a writ of habeas corpus to you, and that carries you over to June. You are safe now for the present."

"Is that so?" said Kemmler, much elated. "Well, I am easier in my mind now." With that Kemmler had exhausted his flow of ideas, the warden came away, and a very important thing was over.

Little Solid Comfort for Kemmler.

There is really little solid comfort for Kemmler in these efforts at keeping him from the death shock which awaits him. Improvements may be made in the chair and a capable executioner may be secured, but except for that Kemmler is rather to be pitied for having had this new lease of a horrid life granted to him. He can scarcely hope for ultimate pardon, as he has cheerfully and with many details related how he chopped his mistress up, believing that he must kill her some time and that he might as well do it then as later. His regular routine of life in the dull cell will now be renewed and he will have to go through another interval of suspense, which in the end may be more torture to him than it would to have gone through the ordeal now, when he had abandoned all hope and had prepared him self to die.

The "Unearned Increment."

CHICAGO, April 30.—The largest acre sale of city property during the present year, so far as the consideration is concerned, was closed yesterday, by which the old Willard homestead, comprising seventy acres and located just south of Jackson park and the Hyde Park water works, changed hands. The price paid was $850,000, or $5,000 per acre. Nothing better illustrates the extraordinary rise in values in Chicago property than this transfer. Mr. Willard, who was at one time the agent of the Bank of Montreal in this city, entered the land some time in the '40's, paying therefore $2.50 an acre, or $175 for the entire tract. In 1867 he was offered $16,000 for the land; in 1873 $68,000, and four years ago a well-known local broker offered him $105,000 cash. All of these offers were refused.

The supreme court of Michigan has decided the liquor law passed by the last legislature invalid, because the act which was passed was, by some legislative error, not the act which the governor signed.

Scratched 28 Years

Body covered with scales. Itching terrible. Suffering endless. No relief. Doctors and medicines fail. Speedily cured by Cuticura at a cost of $5

Cured by Cuticura

If I had known of the CUTICURA REMEDIES twenty-eight years ago it would have saved me $200.00 (two hundred dollars) and an immense amount of suffering. My disease (psoriasis) commenced on my head in a spot not larger than a cent. It spread rapidly all over my body and got under my nails. The scales would drop off of me all the time, and my suffering was endless and without relief. One thousand dollars would not tempt me to have this disease over again. I am a poor man, but feel rich to be relieved of what some of the doctors said was leprosy, some ringworm, psoriasis, etc. I took sarsaparillas over one year and a half, but no cure. I went to two or three doctors, and no cure. I cannot praise the CUTICURA REMEDIES too much. They have made my skin as clear and free from scales as a baby's. All I used of them were three boxes of CUTICURA, and three bottles of CUTICURA RESOLVENT, and two cakes of CUTICURA SOAP. If you had been here and said you would have cured me for $200.00 you would have had the money. I looked like the picture in your book of psoriasis (picture number two, "How to Cure Skin Diseases"), but now I am as clear as any person ever was. Through force of habit I rub my hands over my arms and leg to scratch once in a while, but to no purpose. I am all well. I scratched twenty-eight years, and it got to be a kind of second nature to me. I thank you a thousand times.

HID AWAY TO DIE.

Peter F. Powell's Remarkable Long Fast.

THIRTY-FIVE DAYS OF STARVING.

He Deliberately Attempts to End His Life by Abstaining from Food or Water—The Cause of His Freak an Accident—Steamboat Disaster in Florida—Roasted While Preparing for Her Wedding—Furnace Explosion.

FINDLAY, Ohio, April 30.—Last fall Peter F. Powell, of Blanchard township, a well-to-do farmer, was trampled upon and badly hurt by a cow he was leading. He would not see a physician and grew worse. After a time he could retain no food on his stomach and grew very despondent. Five weeks ago he mysteriously disappeared, leaving no clue to his probable fate. His family made a thorough and persistent search for him, which was kept up nearly every day since. They had about come to the conclusion that his suffering had driven him insane and that he had wandered away and died. Yesterday his son, while tearing away an old barn on the farm, was startled to find his father lying in the center of a hay press, where he had been ever since his disappearance.

They Found a Skeleton.

He was still alive, although very weak, and was able to say that during all that time he had not tasted food or water. When he went away he weighed 246 pounds, but when found he was a mere skeleton, weighing but 113 pounds. He was brought to this city and physicians summoned, who say he is suffering from a stricture in the throat, which could be relieved were he strong enough to stand an operation. Mr. Powell says he was so hungry for the first three weeks of his enforced abstinence from food that he could have eaten his own flesh, but for the last two weeks he has had no desire whatever for food. He will not explain why he hid away, except that he wanted to die by himself.

DISASTER ON THE RIVER.

The Steamer H. B. Plant Burned—Three Colored Men Drowned.

JACKSONVILLE, Fla., April 30.—The steamer H. B. Plact, of the St. Johns river line, was burned yesterday at Beresford landing, 108 miles south of Jacksonville. Three colored men—Elber Mallory, a waiter; Walter Coleman, a deck hand, and an unknown deck passenger — were drowned. There were a dozen other passengers and a crew of twenty-three on board.

The captain kept the deck hands back with a revolver until the women and children got into the boats. People from shore with canoes aided in the escape of the other people on board. The boat was valued at $45,000 and was wholly destroyed.

A Bride Badly Burned.

FORT DODGE, Ia., April 30.—Miss Lizzie Warner, a pretty young lady of this city, was badly burned yesterday morning while preparing for her wedding. Miss Warner was emptying a trunk in which to pack her trousseau, and threw the rubbish contained in it into the fire. A package containing a pound of gunpowder went into the stove with the rest and exploded. The girl's head, arms, and chest were badly burned. She may recover, but will be badly disfigured. She was to have been married yesterday, but the ceremony was indefinitely postponed.

Eight Japanese Women Suffocated.

SAN FRANCISCO, April 30.—On arrival of a Japanese steamer at Hong Kong, March 26, from Nagasaki, the bodies of eight Japanese women were discovered in a hole between the engine-room and the hold, having been suffocated during the passage. They had stowed themselves away with four other women and a male attendant, being desirous of leaving the country and not having official permission. The survivors were insensible and much emaciated.

Burned by a Furnace Explosion.

PITTSBURG, Pa., April 30.—A furnace at the Edgar Thompson Steel works, Braddock, Pa., exploded at 5:30 o'clock yesterday morning, scattering debris in all directions. Four Hungarians were seriously burned, one of them, Jacob Khroni, it is thought, fatally. The cause of the accident is not known. The loss will be quite heavy.

INDIANA'S GOVERNOR ILL.

A Friend Fears He Will Not Live Out His Term.

INDIANAPOLIS, April 30.—The friends of Governor Hovey are becoming very much alarmed over his condition. One of them said he did not believe that he would live to see the end of his term. Some three months ago Mr. Hovey suffered a severe attack of the grip, and this was followed by a very acute form of rheumatism. He was still suffering from the latter disease when dropsical tendencies became plainly marked, and he is now in very feeble health. He is frequently all day absent from his office, and when he comes down is compelled to use a carriage. It is with great difficulty that he walks, even on the smooth, tile floor of the capitol, and he goes in and out of his carriage only with assistance.

Married to a Foreign Count.

PHILADELPHIA, April 30.—The marriage of Count Maximillian Albrecht, count of Pappenheim, to Miss Mary Wister Wheeler, daughter of Mrs. Charles Wheeler, took place here yesterday, Mayor Fitler performing the ceremony. The affair was conducted in a very unostentatious manner. The religious service necessary before the bride attained the title of Countess of Pappenheim took place at St. Mark's church to-day.

Hiram Sawtelle's Skull Found.

BIDDEFORD, Me., April 30.—Word reached here Monday that a human skull from which the skin and hair had been torn, leaving portions of the flesh upon the bones, had been found near Cornish, on the road between Limerick and Cornish, in a clump of bushes. It will of course be impossible to identify the skull, but there seems to be little doubt that it is Hiram Sawtelle's head.

Bank Failure in New York.

NEW YORK, April 30.—The Homestead bank closed its doors yesterday, and is now in the hands of N. A. Chapman. Bad business is said to be the cause of its suspension. The bank has a capital of $100,000. It is said the depositors will be paid in full.

The clothing establishment of George W. Simmons, at Lincoln, Neb., has been closed by the sheriff. The liabilities are given at $115,000 and the assets $75,000.

BOYCOTTED BY BULL.

A Roman Catholic Bishop Puts a Newspaper Under the Ban.

BELLEVILLE, Ills., April 30.—A sensation that is a universal topic of discussion has been precipitated by Bishop Janssen, of Belleville. He has issued a bull of excommunication against The Arbeiter Zeitung, a Socialist paper of West Belleville, and its editor, Hans Schwarz. He commands all Roman Catholics on pain of excommunication not to read, advertise in, or circulate The Arbeiter Zeitung. The diocese includes all southern Illinois, and the bull will be read in all Roman Catholic churches next Sunday. It was read in the Belleville church last Sunday. The bishop claims that the doctrines of The Arbeiter Zeitung are antagonistic to the church, and the language unsafe for the family.

Robert G. Ingersoll has received from Rome a small piece of the metal from which was cast the statue of Giordano Bruno, recently unveiled there much to the pope's disgust.

Mrs. William M. Springer, wife of the Illinois representative, delivered an address on home missions at the meeting Tuesday of the Woman's Home Missionary society, at Baltimore.

It seems that the cause of the disaster to the Inman liner City of Paris some weeks ago was the wearing away of the bearings of the propeller shaft, which had entirely disappeared where they passed through the stern. This resulted in the breaking of the shaft outside the stern, the consequence of which was the reduction of the engines to complete ruin.

The Record on the Diamond.

CHICAGO, April 30.—The base ball playing yesterday resulted in the following scores: League: At Philadelphia—Philadelphia 5, New York 4. At Brooklyn—Boston 2, Brooklyn 5. At Cleveland—Cleveland 3, Cincinnati 2. At Chicago—Pittsburg 4, Chicago 9.

Resignation of a "Q" Official.

CHICAGO, April 30.—E. P. Ripley, general manager of the Chicago, Burlington and Quincy road, handed in his resignation yesterday, to take effect June 1. Mr. Ripley resigns his position to accept the vice presidency of the Chicago, Milwaukee and St. Paul road. He will have entire charge of the operating and traffic departments.

Mattie Bacon's Body Found.

CHICAGO, April 30.—The body of Miss Mattie Bacon, the young conservatory student, who threw herself into the lake a month ago, was found near the Twelfth street pier yesterday morning by some fishermen. The face was distorted and discolored, and the body could only be identified by jewelry and wearing apparel.

HOW'S THIS

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by taking Hall's Catarrh Cure.

F. J CHENEY & Co., Props., Toledo, O

We, the undersigned, have known F J. Cheney for the last fifteen years and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by their firm.

West & Truax, Wholesale Druggists; Toledo, Ohio.

Walding, Kinnan & Marvin, Wholesale Druggists, Toledo, Ohio.

E. H. VanHoesen, Cashier, Toledo National Bank, Toledo, Ohio.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucus surfaces of the system. Price 75cts per bottle. Sold by all Druggists.

When you need a mild laxative you should have a medicine that will act on the liver and kidneys as well as the bowles. Begg's Vegetable Liver Pills are prepared expressly for this purpose. Insist on getting them, as they have not superior and few equals.

D. S. HORTON, Druggist.

Hold it to the Light

The man who tells you confidentially ust what will cure your cold is prescribing Kemp's Balsam this year. In the preparation of this remarkable medicine for coughs and colds no expense is spared to combine only the best and purest ingredients. Hold a bottle of Kemp's Balsam to the light and look through it; notice the bright, clear look; then compare with other remedies. Large bottles at all druggists 50c and $1. Sample bottle free.

Miles' Nerve and Liver Pills

An important discovery. They act on the liver, stomach and bowels through the nerves. A new principle. They speedily cure billiousness, bad taste, torpid liver, piles and constipation. Splendid for men, women and children. Smallest, mildest, surest. 30 doses for 25 cents. Sample free at Tillson Hayden's. 1

Ask Your Friend About It.

Your distressing cough can be cured. We know it because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c and $1.00 at all druggists. Sample bottle free. 2

If you or any of your family should happen to be frightfully burned or scalded, what have you in the house to alleviate the pain until you can get a physician? A box of Begg's German Salve at hand in times like this would save a world of sufferings and oftentimes a doctor bill, as it has no equal in cases of this kind, as well as inflammation of all kinds.

D. S. HORTON, Druggist.

Gone For Good.

It is to be hoped that the barbarous bustle has gone for good, but it is certain the great discovery of Dr. Franklin Miles has come to stay and alleviate human suffering. This wonderful nerve food and medicine builds up wornout systems, cures fits, spasms, headache, nervous prostration, dizziness, sleeplessness, monthly pains, sexual troubles, etc. Mrs. John R. Miller, of Valparaiso, Ind., and J. D. Taylor, of Logansport, Ind., gained 20 pounds a month while taking it. Finely illustrated treatise on "Nervous Diseases" and sample bottle of the Restorative Nervine, free at Tillson & Hayden's who guarantee it. 5

A continual coughing is very annoying to persons sitting near you in any kind of a gathering; besides, it is of great damage to the throat and lungs, and is exceedingly dangerous at this season of the year. One-half bottle of Begg's Cherry Cough Syrup will relieve any ordinary cough, and this remedy costs no more than the inferior grades that are thrown on the market to sell at enormous profits.

D. S. HORTON, Druggist.

HEALTH IN OLD AGE.

Edward Collinson, Queens, N. Y. says: "I commenced using BRANDRETH'S PILLS over fifty-five years ago. I first bought them in London, and have continued using them since I came to this country in 1836. I am now over seventy-five years old, hale and hearty, and attribute my wonderful health to the persistent use of BRANDRETH'S PILLS. Occasionally I have a bad cold or severe attact of rheumatism, indigestion or billiousness, but four or five doses of BRANDRETH'S PILLS always cure me. Whenever my children have been sick with scarlet fever, measles, mumps acid stomach, disordered digestion or costiveness, a few doses of BRANDRETH'S PILLS restore their health at ence."

BRANDRETH'S PILLS are composed of numerous vegetables so combined that each multiples the virtues of the rest. They never can do any harm. Their action is always the same, no matter how long or in what doses they are taken. They purify the blood. They stimulate the liver. They invigorate digestion. One or two at night for a week will demonstrate their power and is generally sufficient to cure ordinary diseases.

BRANDRETH'S PILLS are sold in every drug and medicine store, either plain or sugar-coated.

Compelled by a business constantly increasing, which was more than any one person could properly attend to, I have taken a partner into my business, the firm now being Cunningham & Buckaloo. Will continue to manufacture all kinds of bed mattresses, including my unrivalled feather mattress on which I have applied for patent; carpet cleaning and renovating. Ordinary Ingrain carpets renovated and made as clean as new at $1.00 per carpet, Brussels at $1.50, gents clothing cleaned at $1.50 per suit.

FULFILL YOUR PROMISES.

Hints to Young Business Men About the Value of a Good Reputation.

There is no lesson the young business man needs to learn more thoroughly than the value of good reputation and good credit. These cannot be won and kept by false pretenses of any kind, but must be earned by a strict observance of contracts, agreements and promises. The man whose word is "as good as his bond" is the man who has inspired confidence in himself by always doing that which he has promised to do. He is also, as a rule, cautious about entering into obligations, chary about making promises that he may not be able to fulfill. If too prodigal in the latter respect one cannot hope to keep faith at all times.

A man who is or intends to be honest sometimes loses credit and reputation simply because he is too hopeful. Counting with too great confidence on uncertainties, he makes promises that he cannot fulfill because of the failure of the event on which they were predicted. He voluntarily fixes the date for the payment of a debt, and finds too late something has gone wrong, so that he cannot meet his obligation. Such an accident may happen any man. Upon the way in which he meets the unexpected trouble depends how his reputation shall stand afterwards. If he can fulfill his promise at any personal sacrifice he should do so; failing that, he should endeavor to keep his word by borrowing elsewhere, thus gaining time for the final discharge of his obligation.

But if he cannot do either he should go as soon as possible to his creditor and secure an extension by frankly telling him the state of affairs, thus renewing instead of breaking his promise. The one essential thing to do is to keep good faith, or come as near to it as possible. The worst possible course is to let time run on until his creditor begins to press him on an obligation long overdue. It is too late then for explanations or renewals. His credit is gone, his reputation is broken down. His after promises are distrusted, though they may be grudgingly accepted.

He may for years after thus shattering faith in himself pay promptly and keep his word, but there will remain the lingering feeling of distrust born of one failure to keep faith or to explain in advance the reasons why it could not be kept. An engagement of any kind should be held sacred, and thus good reputation, which is of slow growth, may be gradually built up, for he who keeps his word at all times becomes respected and is trusted. The young man cannot learn too early in life his responsibility to himself and others. He is to make his reputation by what he says and does, and at the outset should have a high regard for truth, which carries with it honesty and insures a prompt and complete fulfillments of all engagements.

He should not allow a careless habit in money matters to grow upon him, but should pay all his bills promptly. There is an implied promise to pay at the end of the month, or when the bill may be presented, even though there has been no engagement to do so made in so many words, and it is good practice to keep these implied as well as other promises with scrupulous care. Such a course will in time establish a reputation whose value cannot be measured by money, besides developing useful habits and keeping one free from oppressive and grinding debts.—St. Louis Post-Dispatch.

Renting a Dress Suit.

"What does it cost to rent a dress suit?"

The question came from a shabby genteel young man who dropped in on a prominent costumer of Detroit.

"What do you want to use it for, sir?" queried the dealer, blandly.

"Party."

"Dancing party?"

"Yes, sir."

"For one night $3. That is the price of a full suit—trousers, coat and vest. Without the trousers I will knock off $1. Do you want a suit now, sir?"

"Want it next week."

"Well, that's lucky. All orders for this week are gone."

"Does anything go with the suit?" queried the young man, softly.

"In what way?"

"Shoes, collar, shirt, necktie?"

"No, sir."

"Can you furnish the whole complete?"

"For double the price, yes, sir; patent leathers and all for double the price."

"Diamond?"

"A large sparkler for your shirt 50 cents extra. There, that's just right, $6.50. Thank you, sir. I'll have a first class outfit ready the day you mention."

"Big trade?" queried the reporter as the customer disappeared.

"Well, rather," said the dealer, smiling. "Thirty suits let out for that same affair already. His order makes thirty-one."—Detroit Free Press.

Horseshoeing in Holland.

The method of shoeing horses in Holland is a novel one. The animal is driven into a stout frame cage; the three feet on the ground are hobbled so that no kicking can be indulged in, then the foot that is to be shod is lifted to the desired position and lashed fast to a stout cross bar so that the smith can work at it from all sides, as though it was held in a vise on a work bench. These docile horses submit to being so bound, but an American or English horse would in most cases resist until he was ruined if so treated. The cost of an entire set of new shoes is three guilders, or $1.20. American nails were used, although the shoes were of local manufacture.—Detroit News.

His Fortune's Foundation.

Marshall Jewell, of Connecticut, made a good portion of his great fortune while minister to Russia. The story runs that he bribed a servant to give him the secret of the manufacture of Russia leather. With it he returned to America and became a wealthy man by making Russia leather in America.—Exchange.

FARMER'S CLUB.

The last meeting of the Farmer's Club was held at the residence of Mr. and Mrs. James H. Morris on Wednesday afternoon April 16th, 1890, and was quite numerously attended. The subject which had been adopted for discussion, viz. "Health on the farm; How can we best promote it?" was announced by President Judd, when Prof. Hartwell took the floor and read a very interesting original paper principally relative to a proper ventilation of dwellings as a means to health, and giving some quotations from other authors on the subject. The essay and impromptu remarks gave the members of club present much scientific information in relation to the necessity of our living in, and breathing pure air, and the proper mode of ventilation of dwellings to render the air in them as pure as possible as being a very important factor in the promotion and preservation of good health.

Mrs Hughes then read an original essay devoted to the cultivation of flowers and house plants as a means to the promotion and preservation of health. The outdoor labor and exercise necessary to the cultivation and care of a nice flower garden in summer, and the care and attention required to keep a proper amount of flowers and plants in a thrifty condition in our dwellings in winter, and the pure and moist condition of the atmosphere and air in our dwellings caused by the transpiration of the plants when in sufficient abundance and properly attended to, will promote health and prolong life.

Mrs. E. H. Groh then read an original essay devoted principally to the subject of good and wholesome food properly prepared as a means to the promotion of good health. Meals should be as nearly as possible at regular hours. The food should be in variety; not rich but wholesome and well cooked. Dinner should be the principal meal. Supper should be light. She would have but little for supper but good bread and butter, but "Barcus wasn't willing."

Miss Carrie Swigart then read an original essay treating the subject in a general way, giving perhaps more importance to plenty of out-door exercise and fresh air than to any other one point as a means to the promotion of health, the whole essay being exceedingly interesting and explanatory of the subject.

Mr. James H. Morris was then elected, and became a member of the club. On motion of Mr. J. L. Lord, the club agreed to take a rest until the third Wednesday, (the 18th day) of June and then hold the annual club picnic at the residence of Mr. D. B. Raymond, on invitation from him. The following persons were then appointed a committee to make the necessary preparation and arrangement for the picnic. T. B. Morgan, D. B. Raymond, E. H. Groh and Walter B. Merriman; and the following as a committe on program for the entertainment. President Judd, Mrs. Swigart, Groh and Miss Raymond. Adjourned, to meet at the residence of D. B. Raymond on Wednesday, June 18, 1890, at 10 o'clock a. m. If favored with a pleasant day a pleasant time may be anticipated.

Thousands Poisoned.

In a recent work on Heart Disease, Dr. Franklin Miles—the noted specialist—gives many new and startling facts. Thousand of people are slowly poisoning themselves weakening their hearts by the use of tea, coffey, tobacco and alcohol. These are HEART WHIPS, causing it to beat rapidly, thus gradually wearing it out, producing shortness of breath when exercising, pains in side and shoulder, hungrey and faint spells. Finally swelling of the ankles and sudden death. For weakened and irritated hearts the press everywhere highly recommend the New Heart Cure discovered by Dr Franklin Miles, which is for sale at Tillson & Hayden's Drug Store. 5
